

KISANSETU (Raitu Setu / Kisan Setu)

Comprehensive Figma UI/UX Design System & Interactive Prototype Specification

Target Platform: Responsive Widescreen Web Portal (1440x900) & Mobile Android PWA (390x844)

Document Version: 2.4.0 - October 2026 - Prepared for Figma Wireframing & Dev Hand-off

1. Executive Product & UX Overview

KisanSetu is a high-performance, farmer-first agritech portal and Progressive Web App designed specifically for small and marginal landholders (1 to 5 acres). The user interface prioritizes clarity, extreme contrast for outdoor sunlight legibility, icon-driven affordances, tactile 48px touch targets, full offline reliability via IndexedDB, and trilingual support across English, Telugu (Telugu), and Hindi (Hindi).

This document provides the exact Figma design tokens, auto-layout frame measurements, typography styles, atomic components, screen-by-screen architectural blueprints, and interactive prototype flow transition settings required to build and maintain the Figma UI design file.

Core UX Metrics & Principles for Figma Prototype

Three-Tap Core Rule

HIGH CONTRAST

Any essential farming action must take <= 3 user taps from the primary home screen.

- Tap 1: Access Dashboard -> Tap 2: Tap Commodity / Market -> Tap 3: View 7-Day Trend Chart & Set Alert.
- Tap 1: Tap "+ Quick Log" -> Tap 2: Tap "+500" & "Labor" -> Tap 3: Tap "Save" (Completed in < 15 seconds).
- Minimum 48px hit areas on all buttons, keypad digits, and category chips for rough-finger accessibility.

Dual Viewport Responsive Frame Strategy

AUTO-LAYOUT

Figma components should be structured using Auto-Layout for seamless scaling.

- Primary Desktop Web Frame: 1440px x 900px (12-column grid, 80px margins, 24px gutters).
- Mobile Android PWA Frame: 390px x 844px (4-column grid, 16px margins, 12px gutters).
- Responsive Breakpoints: Mobile (<= 640px), Tablet (641px - 1024px), Desktop Widescreen (>= 1025px).

2. Figma Design System Tokens (Color, Type & Spacing)

Import the following color styles, text styles, and effect styles directly into your Figma local library.

A. Color Palette & Semantic Roles

Primary Emerald & Forest Greens (Brand & Farming Foundation)

PRIMARY

Represents growth, stability and verified government alignment.

- primary-950: #021A0D (Deepest background tint & header gradients)
- primary-900: #052E16 (Main dark brand surfaces, title banners)
- primary-800: #064E3B (Primary buttons, active tab highlights, strong borders)
- primary-700: #047857 (Call-to-action buttons, high-emphasis status icons)
- primary-500: #10B981 (Live ticker badges, price increase arrows, success checkmarks)
- primary-50: #ECFDF5 (Light tinted card backgrounds, active selection chips)

Functional Accent & Alert Colors

ACCENTS

Carefully selected for high visual pop without overwhelming low-literacy users.

- accent-amber: #D97706 / #F59E0B (Price alerts, task warnings, OTP banners, gold badges)
- rain-blue: #0284C7 / #0369A1 (Hyperlocal rain alerts, GPS indicators, irrigation cues)
- danger-red: #DC2626 / #FEE2E2 (Price drops, critical pest severity, offline sync deficit)
- surface-bg: #F8FAFC / #F1F5F9 (Clean neutral app background for low eye fatigue)
- text-main: #0F172A (90% black for sharp outdoor sunlight readability)
- text-muted: #64748B (Secondary labels, metric units, distances)

B. Typography Hierarchy (Figma Text Styles)

Headers utilize "Outfit" for friendly modern legibility. Body and numerical data utilize "Plus Jakarta Sans" with tabular numbers enabled for price comparisons.

Typography Scale Table

TYPOGRAPHY

Set in Figma as standardized Text Styles:

- Display Hero: Outfit Bold 800 - 32px / 40px line-height - -0.5px letter spacing (Banners)
- Heading 1: Outfit ExtraBold 800 - 24px / 32px - -0.3px spacing (Section Titles, Modals)
- Heading 2: Outfit Bold 700 - 18px / 26px - -0.2px spacing (Card Titles, Modal Rates)
- Heading 3: Outfit SemiBold 600 - 15px / 22px - Normal spacing (Category groups)
- Body Regular: Plus Jakarta Sans 400 - 14px / 20px (General descriptions & advisory notes)
- Body Bold: Plus Jakarta Sans 700 - 14px / 20px (Button labels, key metrics, table rows)
- Caption/Pill: Plus Jakarta Sans 800 - 12px / 16px (Badges, trend deltas, distance indicators)
- Keypad Num: Outfit ExtraBold 800 - 24px / 28px (Numeric keypad inputs)

3. Core UI Components & Atomic Design Specifications

A. Interactive Buttons & Touch Targets (48px+ Rule)

Button Specifications (Figma Auto-Layout)

BUTTONS

All clickable items adhere to minimum 48px height:

- Primary CTA: Height 52px, Radius 14px, Padding: [14px 20px], Background: Linear Gradient (#047857 -> #059669), Text: White 15px Bold, Shadow: 0 4px 12px #000000
- Secondary Button: Height 48px, Radius 12px, Padding: [12px 18px], Border: 1.5px solid #A7F3D0, Background: White / #ECFDF5, Text: #064E3B 14px Bold
- Quick Keypad Cell: Height 50px, Radius 12px, Background: #F1F5F9, Border: 1px solid #CBD5E1, Text: #0F172A 20px Bold. Preset Increment (+100%)
- Crop / Filter Chip: Height 38px, Radius 10px, Padding: [8px 14px], Icon: 16px, Border: 1.5px solid #CBD5E1. Active state: Background #047857, Border: 1.5px solid #047857

B. Status Indicators, Badges & Alert Banners

Information Banners & Real-Time Indicators

INDICATORS

Ensures honest and transparent app states:

- Live Mandi Ticker: Height 34px, Full Width, Background: #022C22, Text: White 12px SemiBold. Continuous horizontal marquee animation with green (#008000) indicator
- Weather Rain Alert: Radius 16px, Background: Linear Gradient (#0369A1 -> #0284C7), Icon: 26px CloudRain in White pill, Title: 16px Bold with AlertTriangle icon
- Offline Sync Badge: 3 States -> [Saved: #ECFDF5 text #047857] | [Offline: #FEF3C7 text #B45309 with pulsing dot] | [Syncing: #DBEAFE text #1E40AE with spinner]

4. Screen-by-Screen Layout Specifications (10 Figma Frames)

Frame 01: Welcome, Sign In & Security PIN Screen

FRAME 01

Dimensions: 1440x900 (Desktop) & 390x844 (Mobile)

- Left Split Hero: 480px width, Background #052E16, Platform highlights with Lucide icons (TrendingUp, CloudSun, ShieldCheck), Trust badges ("Free for Farmers", "Secure", "No Hidden Fees")
- Right Auth Card: Tab switcher (Sign In vs Create Account), Role toggle (Farmer vs FPO Coordinator), 10-digit mobile number input with +91, 4-digit OTP input, and a "Forgot PIN?" link.
- Instant 1-Click Demo Profiles: "Farmer Ravi (3 Acres)" & "FPO Suresh Babu" buttons for instant test access.
- Language selector pill anchored to top right header (English, Telugu, Hindi).

Frame 02: 3-Step Farmer Onboarding Wizard

FRAME 02

Dimensions: 390x844 & Modal 580x640

- Step Indicator: 3 segmented progress bars at top in #047857.
- Step 1 (Mobile & PIN): Phone input, 4-digit security PIN setup, OTP verification.
- Step 2 (Farmer & Location): Full Name, State dropdown, District input (Warangal), Village/Panchayat (Atmakur).
- Step 3 (Cultivation Profile): Acreage input (1-50 Acres), Soil type select (Red Sandy Loam), Selectable crop chips (Paddy, Groundnut, Cotton, Chilli, Tomato).
- Success State: Celebratory micro-confetti burst with redirect to Dashboard.

Frame 03: Live Widescreen Dashboard

FRAME 03

Dimensions: 1440x900 (3-Column Desktop Grid: 360px | Flex 1 | 340px)

- Top Welcome Banner: Farmer name, village, landholding, + Quick Log (15s) and Log Field Work buttons.
- Rain Alert Banner: Displayed conditionally when rain probability > 50% with sprayer postponement advisory.
- Column 1: Real-time Open-Meteo weather radar card, temperature, humidity, wind, 5-day forecast strip, and Active Crops inventory.
- Column 2: Live Mandi snapshot cards with modal prices, arrival volumes, day trends, and Due Farm Tasks with checkable items.
- Column 3: Season Net Profit banner card (Rs. 56,300), AI Crop Doctor quick launch widget, and Govt Subsidy eligibility badges.

5. Advanced Screens & Modal Layouts

Frame 04: Rapid 15-Second Farm Diary & Keypad Modal

FRAME 04

Dimensions: Mobile Bottom Sheet (390x620) & Desktop Modal (520x680)

- Header: "Quick Farm Entry" with close icon and subtitle "Record in under 15 seconds - Works offline".
- Mode Switch: Toggle between "Log Expense" and "Log Field Work".
- Crop Selector: Horizontal scrollable chips for active crops (Paddy, Groundnut).
- Category Grid: 3x2 grid with Lucide icons (Labor, Fertilizer, Seeds, Machinery, Pesticides, Harvest Sale).
- Amount Display: Big 28px bold numerals with currency symbol Rs. and Web Speech voice dictation button.
- Custom Numeric Keypad: 4x4 grid: [1,2,3, +100] [4,5,6, +500] [7,8,9, +1000] [Clear, 0, Backspace, +5000].
- Save CTA: Full-width green button with Check icon -> triggers 5-second Undo toast upon saving.

Frame 05: Live Mandi Trading Terminal & 7-Day Trend

FRAME 05

Dimensions: 1440x900 & Mobile Scroll

- Header: Live Trading Terminal title with red "LIVE APMC" pulsing pill, "Fetch Live Quotes" refresh button, "Set Alert" button.
- Search & Filter Bar: Instant search input by market/commodity, State filter pills, Commodity filter chips.
- Active Market 7-Day Trend Hero Card: Selected mandi details, grade, arrivals in tonnes, demand level, and interactive SVG line chart with date points.
- Mandi Depth Cards Grid: Min, Max, Modal prices, distance in km from detected GPS location, arrival volume, and day trend delta.
- Set Price Alert Modal: Target price input with confirmation toast.

Frame 06: All-India Location Explorer Modal

FRAME 06

Dimensions: 680x600 Center Modal

- Active Location Card: Shows currently active district with coordinates and "Auto-Detect GPS" button.
- Search Input: Instant typeahead searching across 70+ Indian agricultural districts and APMC hubs.
- State Filter Tabs: Telangana, Andhra Pradesh, Maharashtra, MP, Punjab, Gujarat, Rajasthan, Karnataka, etc.
- Results Grid: Clickable district cards with state badges that recalculate weather and mandi distances upon selection.

6. Figma Interactive Prototyping Flow Architecture

Connect your Figma frames using the exact prototype interaction triggers and animation settings below:

Flow 1: First-Run Onboarding & Authentication Flow

FLOW 01

Prototype Connections:

- Trigger: On Click "Create Account" -> Action: Open Frame 02 (Step 1) -> Transition: Smart Animate, Ease Out, 250ms.
- Trigger: On Click "Continue to Farmer Details" -> Action: Navigate to Frame 02 (Step 2) -> Transition: Slide In Right, 200ms.
- Trigger: On Click "Next: Land & Crops" -> Action: Navigate to Frame 02 (Step 3) -> Transition: Slide In Right, 200ms.
- Trigger: On Click "Complete Registration" -> Action: Navigate to Frame 03 (Dashboard) -> Transition: Dissolve, 300ms + trigger Confetti.

Flow 2: Rapid 15-Second Expense Entry Flow

FLOW 02

Prototype Connections:

- Trigger: On Click "+ Quick Log (15s)" on Dashboard -> Action: Open Overlay (Frame 04) -> Position: Bottom Center, Animation: Move In (Bottom), Gen
- Trigger: On Click Keypad numbers / "+500" -> Action: Set Variable (Amount = Amount + 500), State: Tactile scale 0.96 active.
- Trigger: On Click "Save Entry" -> Action: Close Overlay -> Action 2: Show Component (Toast Notification: "Saved to local diary! Undo") for 5000ms del

Flow 3: Mandi Price Inspection & Price Alert Flow

FLOW 03

Prototype Connections:

- Trigger: On Click "Mandi Prices" Tab in top nav -> Action: Navigate to Frame 05 (Terminal) -> Transition: Instant.
- Trigger: On Click any Mandi card (e.g. Warangal Paddy) -> Action: Change Variant (Hero Trend Chart swaps active dataset).
- Trigger: On Click "Set Alert" -> Action: Open Overlay (Target Price Modal) -> Action: On Confirm -> Show notification badge.

Flow 4: AI Crop Doctor Diagnosis Flow

FLOW 04

Prototype Connections:

- Trigger: On Click "Crop Doctor (AI)" Tab -> Action: Navigate to Frame 09 -> Transition: Dissolve 200ms.
- Trigger: On Click "Leaf Sample (Rice Blast)" -> Action: Set Variant (Active Sample Image).
- Trigger: On Click "Run AI Diagnosis" -> Action: Play Laser Beam Animation (1200ms delay) -> Action 2: Reveal Diagnosis Report Card with 96% Conf

7. Figma Auto-Layout Rules & Developer Handoff

Auto-Layout Structure Rules for Figma Components

AUTO-LAYOUT

Follow these constraints for 1:1 code parity:

- Top Ticker: Auto-Layout Horizontal, Spacing: 28px, Padding: [7px 16px], Fixed Height: 34px, Fill: #022C22, Clip Content: Checked.
- Portal Header: Auto-Layout Horizontal, Space Between, Padding: [12px 24px], Fill: Linear Gradient, Width: Fill Container.
- Dashboard 3-Column Grid: Parent Auto-Layout Horizontal, Gap: 20px, Child 1: Fixed 360px, Child 2: Fill Container, Child 3: Fixed 340px.
- Keypad Grid: Auto-Layout Vertical, Gap: 8px. Rows: Auto-Layout Horizontal, Gap: 8px, Children: Fill Container (equal width).

Usability Testing Checklist for Pilot Evaluation

USABILITY TEST

Tasks for farmer user testing sessions:

- Task 1: Log an expense of Rs. 600 for weed removal labor in under 15 seconds without assistance.
- Task 2: Identify today's modal price for Paddy in Warangal APMC and compare it with Khammam yard.
- Task 3: Locate today's rainfall warning and read the agronomist spray advisory.
- Task 4: Switch app language to Telugu (Telugu) and verify crop names (Paddy (Vari), Groundnut (Verusenaga), Cotton (Patti)).
